

PERFUME MANUFACTURING ERP

# Complete ERP Solution for Perfume Manufacturing

One platform to manage your entire perfume business — from raw materials to finished goods, procurement to sales, and full financial accounting.

- 01

 **Dashboard & Business Overview** — Real-time KPIs, charts, and smart alerts
- 02

 **Raw Material Inventory** — Stock tracking, batch management, ledger, alerts
- 03

 **Supplier Management** — Supplier directory, performance, and payment tracking
- 04

 **Purchase Management** — Purchase orders, goods receipt, and automatic stock update
- 05

 **Formula / Recipe Management** — Core module — perfume recipes with ingredients & packaging
- 06

 **Production Management** — Manufacturing orders, material consumption, yield tracking
- 07

 **Finished Goods & Sales** — Product inventory, sales orders, and invoicing
- 08

 **Full Accounting & Finance** — Automated journal entries, payables, receivables
- 09

 **Payments & Expenses** — Payment tracking, bank book, cash book, expense management
- 10

 **Business Intelligence Reports Catalog** — 25+ Report Heads covering Stock, ROI, Profitability, Wastage & Finance

AUTO ACCOUNTING

MODULE 01

# Dashboard & Business Overview

See your entire business at a glance — revenue, profit, inventory, production, and urgent alerts in one screen.

MODULE 02

# Raw Material Inventory

Track every drop of oil and gram of chemical — live stock, batch history, movement ledger, and automatic low stock alerts.

●●● PerfumeERP — Raw Materials Overview

Raw Materials (24 items)

| SKU    | MATERIAL       | CATEGORY      | CURRENT STOCK | RESERVED | AVAILABLE | REORDER LEVEL | AVG COST | STATUS |
|--------|----------------|---------------|---------------|----------|-----------|---------------|----------|--------|
| RM-001 | Oud Oil        | Essential Oil | 5,200 ml      | 1,200 ml | 4,000 ml  | 500 ml        | ₹850/ml  | OK     |
| RM-002 | Rose Oil       | Essential Oil | 120 ml        | 0 ml     | 120 ml    | 200 ml        | ₹450/ml  | LOW    |
| RM-003 | Ethanol        | Solvent       | 50,000 ml     | 7,000 ml | 43,000 ml | 5,000 ml      | ₹2.50/ml | OK     |
| RM-004 | DPG            | Chemical      | 8,500 ml      | 1,200 ml | 7,300 ml  | 1,000 ml      | ₹15/ml   | OK     |
| RM-005 | Fixative Agent | Fixative      | 2,000 ml      | 500 ml   | 1,500 ml  | 300 ml        | ₹120/ml  | OK     |

**Three Stock Numbers**

**Current Stock** — Physical qty

**Reserved Stock** — Locked for production

**Available Stock** — Usable stock

**Batch / Lot Tracking**

Every incoming stock creates a batch with supplier, purchase date, cost, and expiry date. Full traceability.

**Stock Ledger**

Complete log of every stock movement — purchases (in), production (out), adjustments. Full audit trail.

**Low Stock Alerts**

Set a reorder level for each material. Alerts appear on dashboard when stock drops below threshold.

# Stock Ledger Output

Complete history of every stock movement for any material — who, what, when, and why.

●●● PerfumeERP — Stock Ledger: Oud Oil

Stock Ledger: Oud Oil

| DATE       | TYPE       | REFERENCE         | IN        | OUT     | BALANCE  | COST    |

### Unlimited Formulas

Create as many perfume recipes as you need — no limits.

### Product Variants

Same perfume, different sizes (50ml, 100ml, 200ml) — clone & adjust.

### Version History

Every change creates a new version. Full recipe modification history.

MODULE 06

# Production Management

The manufacturing engine — select a formula, specify quantity, and the system calculates everything automatically.

## Production Workflow

● ● ● PerfumeERP — Production Order PROD-2026-0010

### Material Requirement: Royal Oud 100ml × 100 bottles

INGREDIENTS REQUIRED

| MATERIAL | REQUIRED | AVAILABLE | STATUS         |
|----------|----------|-----------|----------------|
| Ethanol  | 7,000 ml | 43,000 ml | ✓ AVAILABLE    |
| Oud Oil  | 500 ml   | 4,000 ml  | ✓ AVAILABLE    |
| Rose Oil | 800 ml   | 120 ml    | ✗ SHORT 680 ML |
| DPG      | 1,200 ml | 7,300 ml  | ✓ AVAILABLE    |
| Fixative | 500 ml   | 1,500 ml  | ✓ AVAILABLE    |

PACKAGING REQUIRED

| MATERIAL           | REQUIRED | AVAILABLE | STATUS      |
|--------------------|----------|-----------|-------------|
| Glass Bottle 100ml | 100 pcs  | 350 pcs   | ✓ AVAILABLE |
| Gold Spray Head    | 100 pcs  | 800 pcs   | ✓ AVAILABLE |
| Wooden Cap         | 100 pcs  | 200 pcs   | ✓ AVAILABLE |
| Product Label      | 100 pcs  | 1,000 pcs | ✓ AVAILABLE |
| Gift Box           | 100 pcs  | 150 pcs   | ✓ AVAILABLE |

 **What the System Does Automatically**

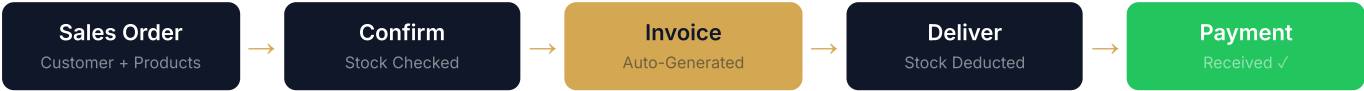

- **Calculates material needs** — Formula × number of bottles to produce
- **Checks availability** — Shows shortages in red so you can purchase first
- **Reserves materials** — Locks materials so other orders can't use them
- **Consumes materials** — Deducts from stock on completion
- **Creates finished goods** — Adds manufactured bottles to your product inventory
- **Updates accounts** — All cost entries posted to your books automatically

MODULE 07

# Finished Goods, Sales & Invoicing

Manage your product catalog, create sales orders, generate professional invoices, and track deliveries and payments.

| Marketing        | ₹30,000   | 7%         | <div></div> |
| Office & Admin   | ₹25,000   | 6%         | <div></div> |
| Total            | ₹4,30,000 | 100%       |             |

## MODULE 10

# Business Intelligence Reports Catalog

25+ Report Heads covering every aspect of your business — from stock alerts to ROI, product profitability to supplier performance.

## Inventory & Stock Report Heads

### Stock Alert Report

All materials below reorder level — SKU, current stock, reorder level, shortage qty, and suggested purchase qty.

### Stock Valuation Report

Total inventory valuation — raw materials, packaging, and finished goods valued at weighted average cost.

### Stock Movement Report

All stock ins and outs for any date range by material or category. Identify fast vs slow-moving stock.

### Slow & Non-Moving Stock

Materials with zero movement in 30/60/90 days to avoid dead capital tied in warehouse storage.

### Expiry Alert Report

Perishable essential oils & chemicals expiring within 30/60/90 days with batch details.

### Stock Consumption Trend

Monthly material consumption rates to help forecast upcoming purchase requirements accurately.

## Production & Manufacturing Report Heads

### Manufacturing Cost Report

Per-product cost breakdown — raw materials, packaging, and overheads. Know your true production cost per bottle.

### Wastage & Loss Report

Production material loss analysis — expected yield vs actual yield per production batch with monetary loss valuation.

### Production Output Report

Units manufactured per perfume product by date range — track factory output capacity.

### Batch Traceability Report

Trace any finished perfume bottle batch back to specific raw material batches, suppliers, and purchase dates.

**Sales & Profitability Report Heads**

|                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                   |
